

Public Service Administration & Protector Class Social Contract for the Natural Law Republic of The United States of America

I, _____, do hereby solemnly swear that I am willfully and of clear mind and conscience signing this contract declaring my status as a member of the Protector Class of The Natural Law Republic of the United States of America. By doing so, I understand that I have accepted a higher level of responsibility than all other Sovereigns of this Republic and have proven my worthiness by passing the Natural Law Republic PC/PSA test. In accepting that level of responsibility, I agree to abide by my oath to protect and defend The Constitution for The Natural Law Republic of the United States and to conduct myself and my actions at the highest level of moral ethics and virtue. I also understand that any violations of this oath will result in my removal from this Class and I will revert to the status of Sovereign only and able to live my life freely as I so choose. If an aggression against another Sovereign or business has been asserted, I will defend myself in a Court of Common Law and agree to comply with any judgments against me.

I understand that as a member of this class, I will be eligible for any available positions in the Public Service Administrations for which I am fully qualified to fill. I will always do all I have been asked to do to the best of my ability and abide by the maxims of Natural Law. If called to participate in a jury in a Common Law trial, I will do so willingly and be paid for my time as well. As a member of this class, I have proven my knowledge of the required curriculum and will conduct my duties in alignment with that knowledge. In matters of voting, I will use my critical thinking skills and understanding of Natural Law to ensure that all matters presented to us are resolved in the most logical and sensible manner possible.

As a member of this Class, I also realize it is my duty to ensure that other members of this Class maintain their code of ethics and honor as well. If I encounter information or actions that show a violation of this code of ethics, I will bring it to the attention of the other member to correct, or to answer for their indiscretion in a Court of Common Law. I understand that the only way to ensure that this Protector Class and system of Public Service Administration never get infiltrated by subversive or corrupting elements or people, it is my duty to do so to maintain the integrity of this organization and to protect the Sovereign Rights of every individual in this Republic. It is my sacred honor to pledge my name and word to this document.
